THE MOLE

We must build a new world. All other proposals have proved their impossibility, we must do things in ways the elders said would come true. Change, destroy and rebuild. It is time for us to build a world, free of self-interest, racism, corrupt authority and the desire of any group of people to claim they could do it on their own. The answer lies in the people — we live, we create — for each other.

STEVE SULLIVAN

We must build a new world. All other generations have passed this responsibility on and it is time to stop the clocks and seize the time. Change, destroy and rebuild. It is time for us to build a world free of selfishness, racism, narrow nationalism and the desire of any group of people to claim this world as their own. The universe belongs to the people – to live, to create – for each other.
